Lumboor.
March 25th.

Dear General,

So very sorry to have missed you when we called at "Roshanara" yesterday. — Our fault for not having sent word that we would be coming, however, I knew you will understand how committments pile up in the last day or two.

Thank you for both your letters — how I wished that I had more in "Kitty" so that I could have let you have my car at whatever figure was suitable to you. I sincerely mean that, for you use your car, (as you use your time & yourself) in the service of your country & her people, & as I love your country & her people it would have been my joy to have felt I was continuing to have a share in its progress. May God richly bless you as you continue this selfless service for others.

An Appreciation

This little gift comes with love from New Zealand!

Yesterday I arrived at "Rockanora" armed with my camera — I wanted to have my photograph taken with the one, who to me, will always be the "Man - of - the year."

Sincerely,
& Ever lovingly,
Bertha. X.
